

## THE TESLA VISION

TESLA Teaching School Alliance is a partnership of educators who have the highest expectations and are striving to achieve exceptional education for all by removing barriers to learning, challenging pedagogy and raising aspirations.

To do this we are focused on developing young people, teachers and leaders who innovate and collaborate, who are excited by the opportunities a self-improving system brings and who want far more for our young people than just outstanding results.

We are an alliance, drawing on the unique characteristics of our individual schools to create a cohesive learning community from 0-19, that inspires memorable learning for all.

## WE AGREE TO

### **Support the development of leadership, teaching and capacity across the Alliance, by:**

- ◇ Promoting TESLA programmes
- ◇ Supporting the participation of colleagues
- ◇ Sharing examples of best practice and opportunities through participation
- ◇ Identifying potential leaders and promoting their participation in TESLA leadership development programmes

### **To contribute to the Alliance's capacity for School to School support, by:**

- ◇ Enabling the recruitment, brokerage and deployment of System Leaders from Alliance schools
- ◇ Working with the Alliance to identify and meet the needs of our school, and to contribute to the development of others

### **Support TESLA's development of ITT capacity in both number and quality of trainees, by:**

- ◇ Communicating our needs to the alliance
- ◇ Placing trainees
- ◇ Promoting TESLA's training offer through the wider community

### **To support the effective governance of the Alliance by:**

- ◇ Complying with TESLA policies
- ◇ Contributing to the evaluation of TESLA programmes against KPIs
- ◇ Contributing to occasional surveys of needs and capacity
